givejedahand

givejedahand The #Curse of Mental Health is CAMH #Psychiatry. With plenty of #dough from #Weiner #King #McCain #CAMH is building what Catherine Zahn calls the #Complex #Care and Recovery Building. That's already #dishonest - already a #lie - since she knows it's really the ward for #schizophrenia. They can't have it both ways - #label everyone with it and exploit it with their #onebravenight nonsense - then pretend it doesn't exist. But they do! There's a lot of manipulative talk about hope, with typically few reasons for it - besides that this will be a centre for brain stimulation (most of which doesn't work). There's to be a therapeutic neighborhood - probably a computer terminal - but it seems ironic given how untherapeutic they've made the #streetsoftoronto for #streetphotography - crummy CAMH #West is just down #QueenWest in #Parkdale. It - and #schizophrenia - continue to exist, even a little shittier than before. Thanks to CAMH! And to you especially, Catherine Zahn! And you too #Justine (#Starsandstripes tommorow!) "#Trudeau #cries on a #dime / We've elected a #slime! / It's whose Daddy's son you are / And his Mercedes car! / Behold what our Flag got / A real Flaming #Faggot!"
